INDEPENDENT AUDITOR'S REPORT

July 29, 2022

To the Board of Directors
Lewis Pointe Metropolitan District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major funds of Lewis Pointe Metropolitan District as of and for the year ended December 31, 2021 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control and relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of financial statements in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities and the major funds of Lewis Pointe Metropolitan District, as of December 31, 2021 and the respective changes in financial position and the budgetary comparison for the General Fund, Debt Service Fund and Capital Project Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Lewis Pointe Metropolitan District's financial statements as a whole. The supplementary information section is presented for purposes of additional analysis and is not a required part of the financial statements.

The Supplementary information, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
12-Month Period Ended
December 31, 2021**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – Total government funds	\$	(1,326,599)
--	----	-------------

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

Issuance of Series 2021 bonds	(10,366,078)
Repayment of Series 2015 bonds	7,775,000
Accrued interest payoff on Series 2015 bonds	38,875
Repayment of Series 2017B bonds	3,096,000

Repayment of Series 2017C bonds	536,000
Accrued interest payoff on Series 2017C bonds	203,601
Principal payment of Series 2021 bonds	310,000

Governmental funds report capital outlays as expenditures. In the statement of activities, capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset. Therefore, this is the net capital outlay activity for the year:

Construction of public infrastructure	24,783
Depreciation expense on property, structures and equipment	(94,597)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Amortization of Series 2021 bond premium	50,906
Amortization of Series 2017C bond discount	(208,795)
Increase in accrued interest payable on Series 2021 bonds	(16,903)
Changes in net position of governmental activities	\$ 32,715

LEWIS POINTE METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS
12-Month Period Ended December 31, 2021

NOTE 1 – DEFINITION OF REPORTING ENTITY

Lewis Pointe Metropolitan District (District), a quasi-municipal corporation and political subdivision of the State of Colorado, was organized on January 03, 2009, and is governed pursuant to provisions of the Colorado Special District Act (Title 32). The District operates under a service plan approved by City of Thornton (City) on August 12, 2008. The District's boundaries encompass 373-single-family homes within the Lewis Pointe subdivision located in Adams County, Colorado entirely within the boundaries of the City. The District was established to provide financing for the design, acquisition, construction and installation of streets, traffic and safety controls, park and recreation, sanitary sewer, storm drainage and other improvements (Public Improvements) within and without the District boundaries that benefit the taxpayers and inhabitants of the District. The District was also established to (1) maintain various open spaces within the District (not otherwise owned and maintained by the City), (2) maintain perimeter fencing, and (3) provide covenant enforcement and architectural review services.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organizations elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organizations governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies of the District are as follows:

Government-wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by property taxes.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred inflows and the sum of liabilities and deferred outflows of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly

These notes are an integral part of the accompanying financial statements.

benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes and specific ownership taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

When both restricted and unassigned resources are available for use, it is the District's policy to use restricted resources first, then unassigned resources as they are needed.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. On November 16, 2020, the Board adopted the District's 2021 budget.

These notes are an integral part of the accompanying financial statements.

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Investments are carried at fair value.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

On November 04, 2008, District voters authorized the District to assess property taxes up to \$500,000 annually, without limitation to rate, to pay the District's operations, maintenance and other expenses. Additionally, the District voters approved a revenue change to allow the District to retain and spend all revenue, other than ad valorem taxes, in excess of TABOR spending, revenue raising or other limitations.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

Specific Ownership Taxes

Beginning in 1937, the State of Colorado began assessing a tax annually on motor vehicles (aka Specific Ownership Tax). The Specific Ownership Tax is graduated based on a vehicle's age and original value. Specific Ownership Tax revenue collected by the State is apportioned among the 64 counties based on the number of state highway miles within each county. Each county allocates its respective share of specific ownership tax revenue proportionally among the various property-taxing governmental entities on the basis of total property taxes assessed by each entity in relation to total property taxes assessed by all entities within the county. The 2022 budget projects the District's share of specific ownership taxes received from the State will be equal to approximately 6.6% of total property taxes collected.

Specific ownership tax is allocated proportionally between each fund based on the ratio of property tax revenue collected for each fund compared to total property revenue collected by the District.

Property Maintenance Fines

Covenant violation fines are assessed, in accordance with the District's covenant enforcement policy, against homeowners whom the District deems to be in violation of the restrictive covenants provided in the Declaration of Covenants, Conditions and Restrictions for Lewis Pointe filed with the Adams County Clerk & Recorder's Office on

These notes are an integral part of the accompanying financial statements.

July 08, 2015 at reception number 2015000053962 (the Declaration). Covenant violation fines are recognized as income after the violation has been identified, the homeowner has been notified and the period has expired for the homeowner to request a hearing to dispute the violation. Pursuant to 32-1-1001(1)(j)(I) CRS, fines and reimbursable costs are secured on and against each respective property by a perpetual lien.

Reimbursable Costs

Legal fees and other costs incurred by the District related to covenant enforcement actions and other services provided to specific properties within the District are charged back to the respective property owners. The District presents reimbursable costs on a net basis. Factors considered by the District in determining whether to present reimbursable cost chargeback revenue on a gross or net basis include whether risks exist that the District will be unable to recover such costs from property owners. Pursuant to 32-1-1001(1)(j)(I) CRS, fines and reimbursable costs are secured on and against each respective property by a perpetual lien, which has priority over all other encumbrances on a property.

Direct and Indirect Collection Costs

Collection costs incurred by the District related to the collection of property taxes includes all costs incurred by the District that enable and support the District's ability to collect property taxes revenue. Generally, such costs include (a) operating and reporting compliance costs that protect the District's right to collect property taxes (e.g. financial statement audit fees, fees paid to professionals to prepare mandatory periodic financial and operational reports to the City and State, etc), (b) professional fees related to applying and monitoring accounting controls over the collection of District revenues, (c) costs related to managing the District's annual property tax assessment process and (d) insurance protecting the District from liability exposure that potentially could arise from performing these activities.

For the 2021 year, the District allocated indirect collection costs between its general fund (70% cost allocation) and its debt fund (30% cost allocation). Direct collection costs such as county treasurer collection fees are proportionally allocated to each fund on the basis of each property tax revenue allocable to each fund proportion to total property tax revenue assessed by the District.

Deferred Outflows of Resources and Deferred Inflows of Resources

A deferred inflow of resources is an acquisition of net position by a government that is applicable to a future reporting period and a deferred outflow of resources is a consumption of net position by a government that is applicable to a future reporting period. Both deferred inflows and outflows are reported in the statement of net position but are not recognized in the financial statement as revenues and expenses until the period(s) to which they relate. Deferred inflows of resources in the governmental fund financial statements of the District for the 12-month period ended December 31, 2021 are comprised of property taxes due from Adams County that will not be collected within 60 days of the end of the current calendar year. Deferred inflows of resources in the government-wide financial statements represents property taxes for which an enforceable legal claim to assets exists, but for which the levy pertains to the subsequent year.

Equity - Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the government's practice to use restricted resources first, then unrestricted resources as they are needed.

These notes are an integral part of the accompanying financial statements.

Equity - Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: non-spendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

- **Non-spendable fund balance** – The portion of a fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts) or legally or contractually required to be maintained intact.
- **Restricted fund balance** – The portion of a fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- **Committed fund balance** – The portion of a fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.
- **Assigned fund balance** – The portion of a fund balance that is constrained by the government's intent to be used for specific purposes but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.
- **Unassigned fund balance** – The residual portion of a fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's policy to use the most restrictive classification first.

NOTE 3 – CASH AND INVESTMENTS

Cash and investments as of December 31, 2021 are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments – unrestricted	\$ 227,054
Cash and investments – restricted	103,921
Total cash and investments	\$ 330,975

Cash and investments as of December 31, 2021 consist of the following:

Deposits with financial institutions	\$ 56,460
Investments	250,022
Total cash and investments	\$ 330,975

These notes are an integral part of the accompanying financial statements.

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2021, the District's cash deposits had a bank balance of \$61,605 and a carrying balance of \$56,460.

Investments

The District has not adopted a formal investment policy. However, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those listed below, which are believed to have minimal credit risk, minimal interest rate risk, and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Revenue bonds of local government securities, corporate and bank securities, and guaranteed investment contracts not purchased with bond proceeds, are limited to maturities of three years or less.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities, and the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse purchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

These notes are an integral part of the accompanying financial statements.

As of December 31, 2021, the District's investments were comprised of the following:

Investment	Maturity	Amortized Cost
Colorado Surplus Asset Fund Trust (CSAFE)	Weighted Average Under 60 Days	\$ 250,022

CSAFE

The District holds investments in the Colorado Surplus Asset Fund Trust (CSAFE), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing CSAFE. CSAFE operates similarly to a money market fund and each share is equal in value to \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds and highest rated commercial paper. CSAFE measures its investments at amortized cost, which value is not materially different (less than 0.005% difference) than the fair value measurement of such investments. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption period notice. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. No limitations exist on the District's ability to withdraw funds invested in CSAFE. CSAFE is rated AAAM by Standard & Poor's.

Debt Authorization

Debt Authorization – Service Plan

The District's Service Plan, which was approved by the City of Thornton on August 12, 2008, authorizes the District to issue up to \$11.7 million in debt at over a term not to exceed 40 years. The repayment of the District's debt can exceed 40 years if the majority of the District's Board are residents of the District and the District's Board has voted in favor of refunding a part or all of the District's debt (which must result in a net present value savings). The District's Service Plan also requires the District to issue debt at market comparable interest rates.

The District's Service Plan also establishes a Maximum Mill levy the District is permitted to impose on taxable property within the District for the payment of debt. As long as the District's total outstanding debt exceeds 50% of the assessed valuation of all taxable property within the District, the Maximum Debt Mill Levy is 50 mills, as adjusted by the State of Colorado for changes in the ratio of taxable valuation to assessed valuation of real property since January 1, 2004. As of January 1, 2004, the ratio was 7.96%. The ratio for 2021 was 7.15%, which caused the District's Maximum Allowable Mill Levy for debt service for 2021 to be 55.664. (The required debt mill levy for 2021 per the District's Series 2018 Senior and Subordinate bonds is 55.664, which is the same as the District's Maximum Allowable Mill Levy.)

As of December 31, 2021, total remaining debt issuance authorization under the District's Amended and Restated Service Plan is as follows:

These notes are an integral part of the accompanying financial statements.

Authorized maximum debt issuance per Service Plan	\$ 11,700,000

Debt Authorization – TABOR

On November 04, 2008, the District's electors authorized (1) the issuance of indebtedness in an amount not to exceed \$81.9 million to fund various public infrastructure improvements at a net effective interest rate not to exceed 18%, (2) the issuance of up to \$11.7 million for refunding the District's debt and (3) the District to assess up to \$11.7 million in tax revenue to fund amounts due under intergovernmental agreements.

The District's authorized but unissued indebtedness in the following amounts allocated for the following purposes is as follows:

	Authorized June 2015 Election	Authorization Used for 2015 Bonds	Authorization Used for 2017B/C Bonds	Authorized Used for North Holly	Authorization Remaining at Dec 31, 2021

Total	\$105,800,000	\$ 7,770,000	\$ 3,788,000	\$ 136,911	\$ 94,100,089

Per C.R.S 32-1-1101(2), the remaining, unused debt issuance authorization obtained from the District's electors will expire as follows:

- \$82,400,089 will expire in June 2035 - 20 years after the original debt authorization election.
- Debt refunding authorization will expire when the District's current general obligation debt is paid down to a balance of \$400,000 or less

NOTE 6 – CONTINGENT OBLIGATIONS

The District has entered into three contingent obligation agreements with Lennar Colorado, LLC ("Developer") and with Clark Carlson, Clay Carlson, Kent Carlson, Steve Young, Scott Carlson, Craig Thornton, Lee Carlson, and Ryan Carlson (collectively, "Prior Developers"). The District has neither registered nor filed a notice of claim of exemption

These notes are an integral part of the accompanying financial statements.

regarding these contingent obligation agreements with the Colorado Securities Commissioner. None of these contingent obligation agreements are transferrable to third parties. The contingent obligations of the District contemplated in the agreements identified below are subject to annual appropriation and are not multiple-fiscal year obligations for the purposes of Article X, Section 20 of the Colorado Constitution. The following contingent obligations exist, but are not necessarily owing, as of December 31, 2021:

Infrastructure Acquisition Agreement. The District and the Developer entered into an agreement dated April 29, 2015, whereby the District requested the Developer to design and construct certain improvements, for which the District issues general obligation bonds and the District will acquire the Improvements from the Developer (“IA Agreement”). The specific acquisition, purchase price, and conveyance of the Improvements from the Developer to the District are outlined in the IA Agreement. Improvement acquisition procedures include (a) Improvement Notice (b) Application for Acquisition (c) Engineer Certification of Costs and (d) District Acceptance of Improvements (including the “Acceptance Letter”). Interest begins to accrue on the stated and accepted amount of District costs at 8.0% per annum (non-compounding), upon the date of the issuance of the Acceptance Letter from the District. The IA Agreement expires upon either (1) full performance of both parties under the IA Agreement or (2) both parties mutually agree to terminate the IA Agreement.

The outstanding balance under the IA Agreement as of December 31, 2021 is as follows:

	Costs	Interest	Total
Beginning Balance (January 01, 2020)	\$ 328,913	\$ 167,626	\$ 496,539
Additional advances received	-	-	-
Accrued interest		26,313	26,313
Payments to the Developer	-	-	-
Ending Balance (December 31, 2021)	\$ 328,913	\$ 193,939	\$ 522,852

North Holly Capital Advance Agreement. In order to pay the initial funding amount due under the North Holly IGA, the District entered into an Advance and reimbursement Agreement for Capital Advances dated August 13, 2014 (the North Holly Advance Agreement), with the Prior Developers. Pursuant to such agreement, the Prior Developers agreed to provide an advance of \$136,911 to the District. Such advance is evidenced by a promissory note that bears interest at a non-compounding rate of 8.0% per annum and matures on August 13, 2054. The North Holly Advance Agreement is a multiple fiscal year obligation of the District. Amounts owed on the Note are payable from all moneys reimbursed to the District pursuant to the North Holly IGA or any other legally available moneys which the District determines, in its absolute discretion, to apply to the principal of and interest due on the Note. The Pledged Revenue for the Bonds is not pledged to pay amounts due under the North Holly Advance Agreement. The outstanding balance under this agreement at December 31, 2021 is as follows:

	Costs	Interest	Total
Beginning Balance (January 01, 2020)	\$ 43,587	\$ 14,196	\$ 57,783
Additional advances received	-	-	-
Accrued interest		3,487	3,487
Payments to the Developer	-	-	-
Ending Balance (December 31, 2021)	\$ 43,587	\$ 17,683	\$ 61,270

Operation Funding and Reimbursement Agreement (“OFR Agreement”). On April 29, 2015, the District entered into a contingent obligation agreement with the Developer to reimburse the Developer for funding the District’s operations and maintenance costs. The contingent obligation bears simple interest at 8% per annum. In the event

These notes are an integral part of the accompanying financial statements.

that all or any portion of advances remain outstanding as of December 31, 2034, such amounts shall be deemed forever discharged and satisfied in full.

For the 12-month period ended December 31, 2021, District payments made, advances received, and interest accrued under the OFR Agreement is as follows:

	Costs	Interest	Total
Beginning Balance (January 01, 2020)	\$ 139,066	\$ 45,357	\$ 184,423
Additional advances received	-	-	-
Accrued interest	-	11,125	11,125
Payments to the Developer	-	-	-
Ending Balance (December 31, 2021)	<u>\$ 139,066</u>	<u>\$ 56,482</u>	<u>\$ 195,548</u>

NOTE 7 – NET POSITION (DEFICIT)

Restricted Net Position

The District’s restricted net position as of December 31, 2021 in the general fund, debt service fund and capital projects fund totaled \$12,900, \$4,871 and \$99,050, respectively. The restricted net position within the general fund is due to spending restrictions established by TABOR. See Note 10 for further details. The restricted net position within the debt service fund is comprised of funds that are restricted to servicing the District’s Series 2021 Bonds.

Non-Spendable Net Position

The District’s non-spendable net position as of December 31, 2021 in the general fund, debt service fund and capital project fund totaled \$15,023, \$0, and \$0, respectively.

Unassigned Net Position

The District’s unassigned net position as of December 31, 2021 totaled (\$8,122,571). This deficit amount was a result of the District being responsible for the repayment of bonds issued for public improvements conveyed to the City of Thornton and the District.

NOTE 8 – RELATED PARTIES

For the 12-month period ended December 31, 2021, the five District residents serving on the District’s board reported no conflicts of interest arising from their participation as directors on the District’s board.

NOTE 9 – RISK MANAGEMENT

Except as provided in the Colorado Governmental Immunity Act, the District may be exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials’ liability, boiler

These notes are an integral part of the accompanying financial statements.

and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials' liability, and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 10 – TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution—referred to as the Taxpayer's Bill of Rights (TABOR)—contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

On November 04, 2008, District voters authorized the District to assess property taxes at no more than \$500,000 annually, without limitation to rate, to pay the District's operations, maintenance and other expenses. Additionally, the District voters approved a revenue change to allow the District to retain and spend all revenue, other than ad valorem taxes, in excess of TABOR spending, revenue raising or other limitations.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). TABOR prohibits the District from using its emergency reserves to compensate for economic conditions and revenue shortfalls.

TABOR is complex and subject to legal interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, may require judicial interpretation.
